We checked with Mr. Caruthers of the Chapel of the Chimes where _____ was cremated in the hope that we could perhaps obtain the ashes without having to get any permission from the next-of-kin. However, Mr. Caruthers says he will need to have such permission. His records show that _____ of Santa Rosa, California, was listed as _____ sister at the time of cremation. No other next-of-kin were listed in Mr. Caruthers' records.
